Alex Example

Senior Software Engineer

Ulm, Germany | alex.example@email.com | +49 170 0000000 | linkedin.com/in/alex-example | github.com/alex-example

PROFILE

Senior software engineer with 7 years of experience building backend services in Python, most recently a shipment-tracking platform in logistics. Experienced with Kubernetes, Docker and CI/CD on AWS, event-driven integrations with Apache Kafka, and mentoring junior developers. AWS Certified Developer.

PROFESSIONAL EXPERIENCE

Senior Software Engineer — ACME Logistics GmbH — Apr 2021 – Present

Ulm, Germany · Full-time

- Designed and built a Python/FastAPI shipment-tracking platform with REST APIs, used by 40 enterprise customers and handling 2 million events per day.
- Built event-driven carrier integrations using Apache Kafka.
- Migrated 12 services from virtual machines to Kubernetes on AWS, reducing infrastructure cost by 30%.
- Introduced CI/CD pipelines with GitHub Actions, cutting release time from one day to 20 minutes.
- Mentored 4 junior developers and led weekly code reviews.

Software Developer — Webstudio Neu-Ulm — Jan 2018 – Mar 2021

Neu-Ulm, Germany · Full-time

- Raised automated test coverage of the main product from 35% to 80% using pytest and Jest.
- Developed customer web applications with React and TypeScript for 15+ clients.

Working Student – IT — Universitätsklinikum Ulm — Oct 2016 – Dec 2017

Ulm, Germany · Part-time

- Automated recurring IT administration tasks with Python scripts.
